

Bigen EZ COLOR FOR MEN

GLOVES are attached to this LEAFLET.

hoyu

- Read the INSTRUCTION LEAFLET carefully before use.
- Hair color products can cause an allergic reaction which in certain rare cases may be severe.
- A skin allergy test must be conducted 48 hours before each time you color your hair, beard, mustache and sideburns.

Never let this product come into contact with eyes.
If the product comes into contact with eyes, strong irritation or inflammation may occur.
In these cases, flush immediately with water and seek medical advice.

CAUTION

● DO NOT USE IF:

- You have already had a reaction to a haircolor product.
- You have a sensitive, itchy or damaged scalp or facial skin.
In these cases, do not conduct the skin allergy test and consult a doctor before using any haircolor products.
- If you have a tattoo, the risks of allergic reaction may be increased.
- Hair color products can cause an allergic reaction which in certain rare cases may be severe.
- A skin allergy test must be conducted 48 hours before each time you color your hair, beard, mustache and sideburns.
- IN CASE OF A REACTION WHILE COLORING HAIR, BEARD, MUSTACHE OR SIDEBURNS, such as stinging, rash or burning sensation on the scalp or facial skin, rinse immediately and discontinue use.
- Keep out of reach of children. Do not apply on children.
- Keep away from extreme temperatures (heat and cold), high humidity and direct sunlight.
- Wait at least 14 days after perming, bleaching or relaxing before coloring.
- Do not shampoo before coloring unless your hair is very oily or has excessive styling products. If necessary, shampoo 24 hours before color application.
- Do not use this product over metallic dyes, henna or color restorers. Wait until your hair has grown out and color-treated areas have been cut off.
- Do not use lighter shades on hair that has been previously dyed with a darker permanent or semi-permanent color. Desired results will not be achieved.
- Do not use this product if your scalp or facial skin has cuts, scratches or is in poor condition.
- Never use this product on eyelashes or eyebrows; to do so may cause blindness.
- Do not use this product on sensitive scalp or facial skin, it could lead to irritation.
- If this product accidentally gets into eyes, nose or ears, immediately rinse out thoroughly, and seek medical advice.
- Do not inhale or ingest. If swallowed seek medical advice immediately.
- Discard any unused mixture immediately after the application.
- In rare cases, use of hair color has been associated with skin depigmentation(skin lightening or loss of skin color), which may be temporary or permanent. If you notice any skin depigmentation or other allergic reaction such as discomfort or severe itching, discontinue use immediately.
- Do not use this product if you have skin depigmentation problems such as white patches on your skin (a condition called vitiligo) or if you have a family history of skin depigmentation problems, because an allergic reaction or skin irritation may cause loss of skin pigment.
- Do not use this product if you have used skin bleach, lightener or depilatory within the past two weeks.
- Do not use this product after trimming or shaving on the same day as your skin may be sensitive.
- Do not use on body hair.

SKIN ALLERGY TEST

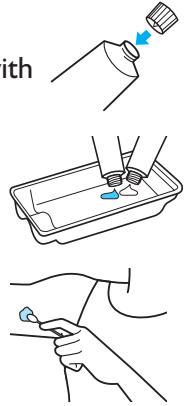

- This product contains ingredients which may cause skin irritation or allergic reaction on certain individuals. The following skin allergy test must be conducted 48 hours before each time you color your hair, beard, mustache and sideburns.

1 Cleanse a small area of skin on your inside elbow and pat dry.

2 Pierce the seal of the Cream Colorant I completely with the point provided in the top of the cap.

3 Mix small equal parts of the Cream Colorant I and Cream Developer 2 in the tray. Tightly recap both tubes.

4 Apply the mixture to test area (about 1 square inch) with a cotton swab. Allow the area to dry and leave undisturbed for 48 hours.

● If there is any redness, burning, itching, swelling, skin abrasions, eruptions, or any other irritation in or around the test area, you may be allergic to the product and must not use it. If there is no reaction in 48 hours, you can proceed to color your hair, beard, mustache and sideburns.

FOR NEXT APPLICATION

- Replace caps tightly to save remaining product for next use.
- Wash the Applicator Comb, tray and gloves well to keep them for next use.
- Dark discoloration of Cream Colorant I (around the opening of tube) is normal and will not affect color result.

PRACTICAL ADVICE

- If any color gets on your skin or household surface, wipe it off immediately with a damp tissue.
- Color result may vary depending on your natural hair color, the amount of gray and the development time.
- For best results, apply cream at room temperature. (68-86°F)
- Don't worry if the color of the mixture on your hair looks different from your desired color.

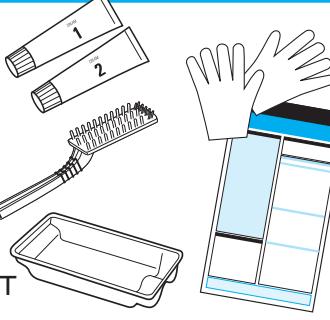

HOW TO USE

BEFORE APPLICATION

PREPARATION BEFORE USE

THIS KIT CONTAINS

- CREAM COLORANT I (yellow cream)
- CREAM DEVELOPER 2 (white cream)
- APPLICATOR COMB
- GLOVES
- TRAY
- INSTRUCTION LEAFLET

YOU WILL ALSO NEED

- OLD TOWEL or CAPE
- OLD SHIRT
- COLD CREAM
- SHAMPOO
- CLOCK
- RUBBER BANDS

PREPARATION

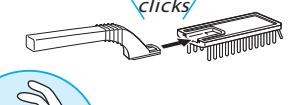

- Make sure that your hair, beard, mustache and sideburns is dry and clean.
- Protect your clothing with an old towel, cape or an old shirt.
- Apply a thin coating cold cream around your ears, hairline and nape of your neck to avoid staining. Remove contact lenses.

APPLICATION & DEVELOPMENT TIME

If you desire to color head hair, beard, mustache and sideburns at the same time, start application from step 1.

If you desire to color only beard, mustache and sideburns, start application from step 4.

- Set up Applicator Comb connecting the 2 separate parts.
Applicator Comb is ready for use when it clicks.

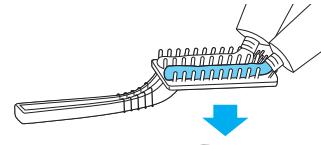

Wear enclosed gloves and secure with rubber band at wrists.

FOR HEAD HAIR

- 1 Squeeze Cream Colorant I to fill up one groove on Applicator Comb. Then squeeze out the same amount of Cream Developer 2 to fill up the other groove.
- 2 Apply cream to dry hair starting from the grayest part. Continue the application until all hair is well covered with cream. Comb through to ensure even distribution.

TIP: For quick and easy application on the hairline use the end of Applicator Comb.

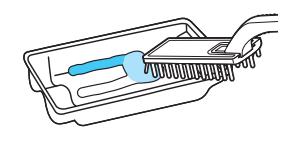

If you are going to color your beard, mustache and/or sideburns, follow to step 4.

- 3 If you desire to color only head hair, wait for 10 minutes (development time).

FOR BEARD, MUSTACHE AND SIDEBURNS

- 4 Squeeze out the same amount of Cream Colorant I and Cream Developer 2 in the tray.
- 5 Mix well using the end of comb until thoroughly blended.
- 6 Use Applicator Comb to apply the mixture to beard, mustache and/or sideburns.

TIP: For quick and easy application, use an old toothbrush.
Please do not use the toothbrush for any other purpose.

- 7 Wait for 10 minutes (Development time).

● Discard any unused mixture.

RINSE

- When time is up, rinse hair with lukewarm water until water runs clear.
- Shampoo well.
 - * Do not allow rinsing water into eyes.
 - * It is recommended to use a conditioner after shampooing.
- Dry and style your hair as usual.
